FLAT GASKET FOR FLANGE

J7240PN10

Tecofi'
VALVE DESIGNER - FRANCE

APPLICATION

General use : hot and cold water, steam, mineral oils, hydrocarbons, gas...

GENERAL CHARACTERISTICS

Compressibility : 8%
Recovery : 55%
Specific weight : 1,9g/cm³

CONSTRUCTION

High quality sheet containing mixture of temperature resisting mineral and aramid fibers with a special NBR rubber binder.

DIMENSIONS

DN		Ø D	Ø d
mm	inch		
250	10"	328	273
300	12"	378	324
350	14"	438	356
400	16"	489	407
450	18"	539	458
500	20"	594	508
600	24"	695	610

WORKING CONDITIONS

Temperature* : -196°C / +400°C
Continuous temperature : +250°C.
Pressure* : 100 bar.

*The maximum temperature and pressure given cannot be associated.

STANDARDS

Gasket according to EN 1514-1 for connecting flange according to standards EN1092-1, EN1092-2, EN1092-3, EN1092-4.
