STAINLESS STEEL NEEDLE VALVE PN400

RP 6690

APPLICATION

General use: Stopping and reducing element for the circuits of liquids, gas and steam.

GENERAL CHARACTERISTICS

threaded entry 1/2"G and nut right/left threaded 1/2"G
With PTFE packing.

CONSTRUCTION

7	1	Handwheel	Plastic
6	1	Bleed screw	Stainless steel
5	1	Differential nut	Stainless steel
4	1	Clamping nut	Stainless steel
3	1	Needle	Stainless steel 316 Ti
2	1	Stem	Stainless steel 316 Ti
1	1	Body	Stainless steel 316 Ti
Pos.	Nb.	Désignation	Material

DIMENSIONS

DN (d)		L	L1	D1	D2	H	Weight (kg)
mm	inch						
15	1/2"	100	20	63	6	79	0,6

WORKING CONDITIONS

Maximum working pressure : 400 bar.

Maximum temperature : + 200°C.

AGREEMENT AND TESTING

BSP threaded according to standard ISO 228-1.
with nut DIN 16283 or swivelling nut (B form).
